A. J. CHOTZNER, *President.*

Given under my hand this 27th day of November 1923.

Case under Bengal Electoral Rules and Regulations, 1923.

TO HIS EXCELLENCY THE RIGHT HON'BLE VICTOR ALEXANDER GEORGE ROBERT BULWER-LYTTON, EARL OF LYTTON, P.C., G.C.I.E., GOVERNOR OF BENGAL.

In the matter of A. Suhrawardy

and

In the matter of Mr. R. Lodge, Returning Officer, District Magistrate of the 24-Parganas,

and

In the matter of Syed Nasim Ali, Vakil, Judge's Court, Alipore, district 24-Parganas.

In the matter of Bengal Electoral Rules and Regulations 1923.

The humble petition of A. Suhrawardy, Barrister at-Law, of 56, Mirzapore Street, in the town of Calcutta,

MOST RESPECTFULLY SHEWETH :—

1. That your petitioner is registered as an elector on the electoral roll of Calcutta North Muhammadan constituency in ward No. 9 and his number in the electoral roll of the said constituency is 193.

2. That your petitioner is duly qualified to stand for election from the 24-Parganas Rural Muhammadan constituency.

3. That your petitioner was nominated for election as a member of the Bengal Legislative Council to be held in November 1923 from the said 24-Parganas Rural Muhammadan constituency.

4. That in the nomination paper in favour of your petitioner the proposer was Kazi Abdul Ja'il, son of Kazi Muhammad Hatem, whose number in the Bengali electoral roll is No. 1, thana Baduria, union No. 9, Shaistanagar.

5. That the name of the said proposer was wrongly printed in the said electoral roll as Kazi Abdul Janis, son of Kazi Muhammad Hatem.

6. That the said proposer is a reputed teacher in the Calcutta Madrasah, and son-in-law of the late Shamsul Ulama Maulvi Ahmad, head maulvi of the said Madrasah, and is also well-known person in the said constituency as well as in Calcutta.

7. That the said proposer did write in the said nomination paper his correct number as given in the printed Bengali electoral roll as well as his name as wrongly printed therein, viz. "Kazi Abdul Janis" and further put his correct name "Kazi Abdul Jalil" in brackets and duly signed and subscribed the same as required by the rules.

8. That Mr. R. F. Lodge, I.C.S., the Returning Officer, in his certificate of scrutiny dated the 11th of October 1923, stated "that the proposer's name was Kazi Abdul Jalil, whereas the name in the voters' list was Abdul Janis" and there was nothing before him to shew that Abdul Jalil and Abdul Janis were the same person, and rejected the nomination paper.

9. That there was nothing in the entries on the nomination paper to show that the proposer was not identical with the person whose electoral number was given in the nomination paper as the number of such proposer.

10. That there is no person of the name of Kazi Abdul Janis, son of the late Kazi Muhammad Hatem, in union No. 9, thana Baduria, Shaistanagar.

11. That the said Returning Officer failed to appreciate the facts and he should have found that the proposer had put the name in exactly the same manner in which it had been noted in the electoral roll printed in Bengali, only within brackets was written "Abdul Jalil" rectifying the misprint or misspelling in the said roll and showing that he was the identical person whose electoral number was given in the nomination paper.

12. That your petitioner ventures to submit that the Returning Officer misunderstood and misinterpreted Regulation XXI (I) (IV) of the Bengal Electoral Rules and Regulations, 1923, and that he has improperly rejected the nomination paper.

13. That the said Returning Officer should have found from the description in the nomination paper that the signatory to it was the self same man as that in the electoral roll whose name was wrongly recorded.

In the facts and circumstances stated above your petitioner prays :—

(*i*) for a declaration that the nomination paper was a valid one, and

(*ii*) for declaring that the election had been void and setting aside the same and for a declaration that a fresh election should be held.

(Verification.)

The statements contained in paragraphs 1, 3, 4, 6, 7, 8 are true to my knowledge and those contained in paragraphs 2, 5, 9, 10, 11 and 12 are true to my belief.

I sign this verification this day, the 10th November 1923, at 10 A.M., at Ishanmanzil, Dacca.

RESOLUTION.

Delhi, the 10th November 1923.

No. 1376.—In 1921 the Government of India invited the views of the maritime local Governments as to the advisability of centralizing the administration of Customs in India, and suggested the appointment of a Controller General for the supervision of Customs administration under the direct control of the Central Government. The consensus of opinion was in favour of the proposal, which was however subsequently held in abeyance pending the recommendations of the Indian Retrenchment Committee. In their report that Committee recommended that the scope of the present Board of Inland Revenue should be enlarged so as to include Customs, Salt and Opium, and also Excise and Stamps so far as the Central Government is concerned with these subjects. This recommendation has been accepted by the Government of India, and they have decided, with the approval of His Majesty's Secretary of State for India, to place the administration of these subjects under the control of a Board, which will for the present consist of two members and will absorb the existing Board of Inland Revenue. Mr. A. R. Loftus Tottenham, I.C.S., and Mr. A. H. Lloyd, I.C.S., have been appointed first Members of the new Board, which will be known as the "Central Board of Revenue."

2. Legislation will be necessary before the new Board can receive full authority to perform the functions which it is intended to discharge, and pending the introduction of such legislation the local authorities will continue to exercise the powers vested in them by existing laws and regulations. Notifications, etc., under the Income-tax Act will continue to be issued by the Board of Inland Revenue as such, pending the necessary amendment of that Act. The new Board will proceed immediately with the examination of the amendments required in the existing enactments to place its powers on a statutory basis, and will consider the question of bringing the administration of these subjects under the direct control of the Central Government with the least possible delay.

ORDERED that the Resolution be published in the *Gazette of India*, for general information.

Secretary to the Government of India.

23. In addition to the inspection and examination of boilers, it shall be the duty of Inspectors to search for unregistered or uncertificated boilers within their areas, and to see that certificated boilers are worked in accordance with the terms of their certificates.

Advice to be given to owners.

24. At the time of inspection, Inspectors shall advise the owner and the person in charge of the boiler on the management and upkeep of the boiler with special reference to the amount of cleaning required in view of the quality of water used.

Specific duties.

25. Inspectors shall—

(a) prepare a programme of inspections with regard to the convenience of owners generally and submit it to the Chief Inspector for approval at such periods as he may fix, at least 14 days before the first date stated in the programme;

(b) maintain a memorandum of inspection book for each boiler under their charge and submit it to the Chief Inspector for examination and countersignature after each inspection;

(c) keep a diary for monthly submission to the Chief Inspector, showing places visited, boilers registered or inspected, variations from the programme, and any other important particulars;

(d) receive applications for registration or inspection under section 7 or 8, proposals for repairs, alterations or renewals under section 12 and 13, reports of accidents under section 18;

(e) enquire into accidents to boilers or steampipes and report to the Chief Inspector;

(f) report to the Chief Inspector cases of unreported accidents discovered at the time of inspection;

(g) submit for the orders of the Chief Inspector—

(i) the memorandum of inspection books of all boilers proposed for registration under section 7;

(ii) proposals for increasing or decreasing the pressure of a boiler after inspection under proviso (a) (ii) to section 8 (5);

(iii) proposals for necessary repairs, structural alterations or renewals to a boiler after inspection under section 8 or 12;

(iv) proposals for revoking, cancelling or refusing to renew a certificate under section 8 or 11;

(v) report when boilers have not been properly prepared for inspection under section 14;

(vi) proposals for prosecutions under the Act.

26. When an inspection under the Act is completed, the Inspector making it shall prepare a declaration in Form No. B 2 appended to these rules in column 8 of which the limit of the working pressure, in pounds per square inch, shall be clearly noted.

General.

27. Upon receipt of the declaration in the office, a certificate shall be prepared in the Form VI prescribed by regulations. Such certificate shall be signed by the Inspector and the Chief Inspector and shall be delivered to the owner, manager or agent of the steam boiler inspected.

The time for inspection of boiler shall be between sunrise and sunset.

Accidents.

Investigation of accidents.

28. On receipt of a report of an accident to a boiler or steampipe under section 18, the Inspector shall, with the least possible delay, proceed to the place to investigate the accident. If the report is received by the Chief Inspector, he shall forward it at once to the Inspector, within whose jurisdiction the accident has occurred, for necessary action.

Procedure during enquiry.

29. The Inspector at his enquiry shall make a careful examination of the damaged parts, and shall take such measurements and make such sketches for the purpose of his report, as he may deem necessary. He shall enquire into the circumstances attending the accident and note the time of its occurrence, its nature and extent, the injury caused to persons and the damage done to property. The report should be in the style of the Reports of Preliminary Enquiries under the British Boiler Explosion Acts, 1882 and 1890.

Power to hold enquiry in writing.

30. Inspectors are authorized to take the written statements of witnesses and all persons immediately concerned with the accident. In order to comply with the provisions of section 18 (2) the Inspector shall present to the owner or person in charge of the boiler a series of written questions on all points that are material to the enquiry.

Use of boiler after accident.

31. The Inspector shall decide whether the use of the boiler can be permitted at the same or at a lower pressure without repairs or pending the completion of any repairs or alterations that he may order. In no case should he issue a provisional order or renewal certificate, until his orders have been carried out.

Procedure in case of serious accidents.

32. The report shall be sent without delay to the Chief Inspector; if he considers that the investigation has been sufficient, he will record the facts in his register of accidents, and enter a brief account of the accident in the registration book, a copy shall be made in the memorandum of inspection book. If, however, the accident is of a serious nature and in all cases in which an explosion has occurred, the Chief Inspector shall, after receipt of the Inspector's report, proceed to investigate the accident personally or report to the Boiler Commission to enquire into the accident. Reports of such enquiries shall be recorded as indicated above.

Reference in annual report.

33. A brief account of all accidents and their causes shall be included in the annual report.

34. If in the course of an inspection or at any other time, the Inspector discovers damage which comes within the definition of an accident, but which has not been reported, he shall report the facts at once to the Chief Inspector for action under section 24 (*d*).

Appeals.

Filing of appeal.

35. Every petition of appeal shall be made in writing either in English or in the vernacular.

Presentation of appeal.

36. An appeal may be presented either personally or by registered post to the Chief Inspector.

Form of appeal.

37. The petition of appeal shall be accompanied by the original order, notice or report appealed against, or by a certified copy thereof, or where no such order, notice or report has been made in writing, by a clear statement of the facts appealed against, the grounds of appeal and the referring section of the Act.

Fixing date for hearing.

38. On receipt of an appeal, the Chief Inspector shall, if the appeal is to be heard by himself, at once fix a date for hearing the appeal; and if it is to be heard by the appellate authority, obtain a date for the hearing of the appeal from the President of that authority. No delay shall be made in deciding appeals, as the stoppage of a boiler is likely to put the owner thereof to great inconvenience. The decision should ordinarily be given within 10 days from the receipt of the petition of appeal.

Procedure before hearing.

39. When the date for hearing has been fixed, the Chief Inspector shall at once issue a notice to the appellant stating the date for hearing and informing him that if he wishes to be heard in support of the appeal or to produce evidence, he must be present either in person or by authorized agent with his evidence on the date fixed. The notice shall be sent to such address as shall be entered in the petition of appeal.

Presence of Inspector.

40. In all appeals the Chief Inspector shall decide whether the presence of the Inspector is necessary, and shall issue orders accordingly.

Attendance of witnesses.

41. The appellate authority shall have power to secure the attendance of witnesses and to make local enquiries under the provisions of the Code of Civil Procedure, 1908.

Ex parte decisions.

42. If the appellant is not present on the date fixed, the appeal may be decided in his absence.

President of appellate authority.

43. The local Government shall appoint, when necessary, an officer to be President of the appellate authority for such period as it thinks fit. The President shall be an officer with judicial or magisterial experience.

44. The Boiler Commission shall constitute the panel of assessors for the purpose of assisting in the hearing of appeals.

Constitution of appellate authority.

45. Whenever the date for an appeal before the appellate authority has been fixed, the Chief Inspector shall, when necessary, under the orders of the President of the authority, arrange for the attendance of three members of the Boiler Commission to act as assessors.

46. All sums realized as fees, costs and penalties under the Act shall be credited to the Steam Boiler Inspection Fund.

Costs in appeals.

47. In appeals before the appellate authority the President of the authority is authorized to fix the costs and recover them from the appellant in any case in which the appeal is dismissed; in all cases of appeal in which a local inspection is required by the appellant he shall deposit in advance the full costs of such inspection.

48. Any order on appeal authorizing the registering of a boiler or the grant or renewal of a certificate shall be deemed to be subject to the payment of such fees as are prescribed by rules or regulations framed under the Act.

Fees required for certificates granted on appeal.

Administrative Instruction for Registration.

49. Technical regulations for the registration of boilers and the scale of fees for registration are prescribed in Part II of the regulations. The details of measurement recorded at the time of registration constitute a permanent record for the boiler and determine the original pressure at which the boiler is allowed to work. It is accordingly essential that the work should be done with the greatest care and precision.

Importance of registration.

50. Applications for registration shall be made under section 7 (*1*) to the Chief Inspector, and shall be accompanied under rule 19 by a receipt for the prescribed fee. No application shall be accepted without the receipt. No boiler shall be registered, if on measurement the fee is found to be deficient, until the deficit has been paid. Any excess payment will be refunded at the time of registration.

Receipt of applications.

51. It is essential that no delay should occur in registration. In large towns, the measurements under section 7 (*3*) should ordinarily be completed and the report submitted to the Chief Inspector within 7 days of the receipt of the application; in no cases should the interval exceed 30 days. The Chief Inspector should issue his orders under section 7 (*4*) without delay.

Necessity of avoiding delay.

52. The Chief Inspector shall maintain a register of registered boilers in serial order in Form A in two parts; in Part I (boilers originally registered in the province) the registered number of a boiler shall be the one immediately following the last serial number in the register. Gap numbers due to boilers being broken up or transferred to another province shall not be filled up. In Part II (boilers originally registered in other provinces) entries shall be made as prescribed in rule 54. Inspectors shall keep a similar register for all boilers within their jurisdiction.

Register of registered boilers.

53. Whenever a boiler is transferred from one province to another, the owner shall, under section 6 (*b*), apply to the the Chief Inspector of the province to which the boiler is transferred, for the registration of the transfer; the boiler cannot be used until registration has been effected. The Chief Inspector shall then obtain from that province the registration book and memorandum of inspection book of the boiler. No fee shall be charged for recording transfer.

Procedure on transfer of a boiler.

54. On receipt of the registration and memorandum of inspection books the Chief Inspector shall enter the boiler under its original number in Part II of his register. The registration book and the memorandum of inspection book shall be kept in the Chief Inspector's office.

Entry of transferred boiler in register.

55. Whenever a boiler has been transferred or broken up, the fact shall be noted in the register of the province from which it has been transferred. In the case of a boiler that has been permanently dismantled the registration book and the memorandum of inspection book shall be destroyed.

Note of transferred and dismantled boilers.

Administrative Instructions for Inspection.

56. Detailed instructions for the inspection of boilers are contained in Part II of the regulations. In making inspections it is important that the Inspector should pay particular attention to entries made in the memorandum of inspection book at the time of the previous inspection.

Reference to previous inspections.

57. In arranging for inspections particular attention should be paid to the provisions of rule 25 (*a*). If an hydraulic test is necessary in addition to the ordinary inspection, ample notice must be given to the owner. During the inspection of one of a battery of boilers, the Inspector should take the opportunity of examining the other boilers under steam, with special reference to the water gauges, pressure gauges, and safety valves.

Procedure during inspection.

58. All certificates must be issued from the head office after being countersigned by the Chief Inspector. Provisional orders should be issued in every case of registration after hydraulic test if the Inspector is satisfied. The steam test may be witnessed at any convenient time within the period of the provisional order, after which if the test is satisfactory the certificate under section 7 is to be issued.

Issue of certificates and provisional orders.

Provisional orders must also be issued after every completed inspection for renewed certificates, so as to give authority for the use of boilers pending the issue of certificates.

The period specified in any provisional order or certificate shall begin on the day following that on which the completed hydraulic test or thorough inspection is made.

59. Certificates and provisional orders shall be issued in Forms VI and V, respectively, prescribed under the Regulations.

60. Fees for inspection shall be calculated on the basis of boiler rating as prescribed under rule 11 (*1*).

4. Where such a certificate is granted, the appellant shall, within the time prescribed by law or within such further time as may be granted by the Appellate Court, find security for the payment of costs, ordinarily to the extent of Rs. 4,000, and as such security, shall, unless otherwise specially ordered by the Appellate Court, deposit with the Registrar either cash or Government securities. In special cases the Court may require security for costs of appeal to a larger amount.

Such estimate shall be prepared and shall include the matters referred to (in the preceding rule) and be framed in accordance with the fees and expenses therein specified. The appellant shall be entitled to be heard by the Court on any objection he may make to the estimate, but such objections shall not delay the making of the deposit or the further deposit.

7. The appellant shall, at the time the deposit under rule 5 is made, state whether or not the record is to be printed in India.

8. 11. Upon receipt of the draft index, list and requisition, the Registrar shall cause notice to be served upon the parties fixing a day not more than a week from the date of the said notice for settlement of the index and list.

12. Any of the parties who may be dissatisfied with the decision of the Registrar or other proper officer on the settlement of the index and list may, within a fortnight from the date of such decision, apply to the Appellate Court, on notice to the other party or parties, for an order that any paper on the record not already included in the index or list may be added thereto, or where already included may be excluded therefrom. The costs of such application shall be paid by such party or parties as the Court shall think fit.

13. The transcript or printed record for the use of the Privy Council shall consist of the separate parts, namely, Part I, Part II and Part III; each part having its own index with a list of documents omitted under rule 17 of His Majesty's Order in Council of 21st December 1908 and under order XLV, rule 7 of the Code, giving a short description of each document. 14. In all civil cases, the portion of the record set out in the index shall be transcribed and the transcript certified by the Registrar where the record is to be printed in England, or shall be printed and the printed record certified by the Registrar where the record is printed in India.

15. After the index and list have been settled, a copy thereof and where there has been no paper-book used in the appeal from the Original Side, copies of the records set out in the index to the various parts shall, where the record is to be printed here, be made over to the appellant's attorney. The appellant's attorney shall then cause the record to be printed in accordance with the following directions :—

(e) the paper book shall contain brief marginal notes, the wording of which shall be approved by the Registrar ;

(f) each document in Part III shall be separately printed and paged at the foot of each page.

The extra fifty copies mentioned in rule 19 of Chapter XXXII may be utilized in Parts I and III for the use of the Privy Council provided they comply with all the abovementioned conditions.

16. Before the paper-book is printed the final or press proof thereof shall be brought into the Registrar's office for the purpose of being examined by the Examiners Department of the Original Side and being passed by the Registrar. The Registrar may call for one or more further proofs until he is satisfied that the order to print can be given. (The court-fee for examining and passing such proof or proofs shall be payable in court-fee stamps.) The press proof may be submitted for examination and passing in sections provided the sections are in consecutive order. (The court-fee for examining and passing shall be payable out of the Rs. 400 or other moneys deposited pursuant to rule 5 of this chapter.)

17. All papers relating to applications and orders made after making over the index and list to the appellant's attorney shall be added to the printed record, or, where the printed record has been completed, printed as an additional record.

18. The appellant's attorney shall, within two months from the date of making over to him of the index and list or within such further time as may be allowed by the Court, deliver 50 copies of the printed record to the Registrar for despatch to the Registrar of the Privy Council.

19. In case any original documents or exhibits are required to be transmitted with the transcript or printed record, application for an order to the Registrar to transmit such documents may be made in Chambers to the Judges constituting the Appellate Court.

20. After the despatch of the transcript or printed record to the Registrar of the Privy Council, the actual cost of and in connection with the same shall be ascertained and any balance remaining in the hands of the Registrar shall be refunded to the appellant.

21. Notice of the despatch of the transcript or printed record to the Registrar of the Privy Council shall be issued by the Registrar or other proper officer for service on the respondent, whether he shall have appeared on the hearing of the application for a certificate under order XLV, rule 3 of the Code, or not. Such notice shall be served by the attorney for the appellant and an affidavit of due service thereof shall be filed by such attorney immediately after such service.

22. After the despatch of the transcript or printed record the Registrar or other officer shall, upon satisfactory proof of service of the notices in rules 9 and 21 mentioned, prepare and sign and forward by post without delay to the Registrar of the Privy Council a certificate that the respondent has been served with such notices.

23. The supplemental record dealing with substitution or recording death of parties shall be transmitted to England in manuscript instead of being printed at the cost of the appellant.

24. Any appeal in which no step has been taken for its prosecution for three months may be placed on the hearing list, on notice to the parties or their attorneys, to be dismissed for default, unless good cause is shown to the contrary, or be otherwise dealt with as the Court may think proper.

25. For the purposes of rules 9, 11, 12, 15 and 16 of this chapter, the word "Registrar" includes the Deputy Registrar or an Assistant Registrar to be deputed by the Registrar.

Third Forecast of the Cotton Crops of Bengal, 1923-24.

[NOTE.—On an average of the five years ending 1921-22, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.]

THERE are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent also in other districts. The "late" crop is chiefly grown in Bankura and Midnapore.

Character of the season.—Weather at sowing time and onward was not entirely favourable, but subsequently improved, and a satisfactory outturn is anticipated in the important districts of the Chittagong Hill Tracts and Tripura State.

The late crop is doing fairly well.

Area sown.—The total area sown with early cotton is returned at 69,699 acres and that with late at 1,437 acres against 70,186 acres and 1,500 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 22,417 bales and the late crop at 372 bales against 18,018 bales and 537 bales, respectively, in the corresponding forecast of the last year.

HIGH COURT NOTICES.

ENGLISH DEPARTMENT—CIVIL.

The 8th December 1923.

No. 13674G.—The following Circular Order made by the High Court of Judicature at Fort William in Bengal, together with its enclosure, being amendment to the Rules of that Court, Appellate Side, is published for general information :—

Circular Order.

CIVIL.

Criminal.

Questions having been raised from time to time as to the action which a subordinate court should take in regard to telegrams said to have been received by a party or his legal adviser communicating the substance of an order made by the High Court, *e.g.*, an order staying proceedings, the following instructions are issued.

It has not been the practice of the High Court to issue or to authorize any of its officers to issue judicial orders by telegram.

In criminal cases, under Rule 126, Chapter I, Volume I, of the Court's General Rules and Circular Orders, Criminal, judicial officers are prohibited from telegraphing orders to officers in charge of jails for the release of prisoners in their custody. So, on the Criminal Side of the High Court, orders for the release of prisoners are not issued by telegram. In such cases, however, care is taken to communicate the purport of the order at once by post. It follows that the High Court, which refuses to issue its own judicial orders by telegram, can accept no responsibility for private telegrams purporting to communicate the effect of the orders.

Accordingly, the High Court will not direct the subordinate courts to act, as a matter of course, on private telegrams of this kind. The most that the parties have the right to expect is that the purport of the Court's order, in any case of urgency, should be communicated to the subordinate court by the first available post. For this purpose, a form has been introduced on the Civil Side similar to the form in use on the Criminal Side (*see* annexed Addendum No. 8 to the Rules of the High Court, Appellate Side, 1922).

It is not, however, the intention of the High Court to leave the subordinate courts no discretion in the matter. If a court is informed by a responsible pleader that, for instance, a proceeding pending before it has been stayed by the High Court, the court may, in its discretion, grant a short adjournment sufficient to allow of the authoritative orders being received by post. It will be understood, however, that, in every case, the matter is one for the discretion of the subordinate court and that an adjournment cannot be demanded as of right on the strength of a private telegram.

Addenda to the Rules of the High Court, Appellate Side, 1922.

No. 8.

Insert the following after Rule 71, Chapter V, at page 33 :—

71A. In every civil matter in which the Court directs an order to be issued immediately, the Bench Clerk shall at once draw up the order in the prescribed form (*see* form after page 36 *post*) and after obtaining the signature of the Judges thereto, send it forthwith to the Deputy Registrar or the Assistant Registrar in charge of the decree section, as the case may be, for issue without waiting for the formal order or the judgment to be signed. The Deputy Registrar or the Assistant Registrar shall issue the order upon payment of such fee as may be chargeable.

No. 9.

Insert the following as clause (*b*) to Rule 7, Chapter XI, at page 95, *ibid.* and *re-number* the existing Rule 7 as Rule 7 (*a*):—

"(*b*) Orders for the release of an accused person from jail or from bail are not to be communicated by telegram."

NOTIFICATION.

Minister in charge : The Hon'ble Sir S. N. Banarji, Kt.

No. 4625 M.—The 10th December 1923.—The following is published for general information under section 41 of the Licensed Warehouse and Fire Brigade Act, 1893 (Bengal Act I of 1893).

G. S. DUTT,

Secretary to the Government of Bengal (offg.).

No. 763M., dated Chinsura, the 22nd June 1923.

From—A. W. COOK, ESQ., C.I.E., I.C.S., (offg.) Commissioner, Burdwan Division,
To—The Secretary to the Government of Bengal, Local Self-Government Department.

I have the honour to submit herewith two statements—one showing the warehouses under the Fire Brigade Act I of 1893 in the Howrah Municipality and the other showing the receipts and disbursements on account of the same for 1922-23.

2. It will be seen that the collection of current demand was 87·6 per cent. and that of arrear demand was 54·6 per cent.

A copy of Chairman's letter No. 907G., dated the 11th June 1923, is enclosed.

No. 907G., dated Howrah, the 11th June 1923.

From—BABU CHARU CHANDRA SINHA, M.A., B.L., Chairman, Howrah Municipality,
To—The Magistrate of Howrah.

As requested in your letter No. 648G., dated 14th May 1923, I have the honour to submit herewith two statements showing the warehouses licensed under the Fire Brigade Act I of 1893 and receipts and disbursements on account of the same for the year 1922-23. The former statement has been prepared in accordance with the instructions contained in the Government of Bengal, Municipal Department, No. 470M., dated 14th February 1917, to the Commissioner of the Burdwan Division, a copy of which was forwarded under his memo. No. 137-M—XXIII-8, dated 16th February 1917.

The collection of fees works out to be 87½ per cent. of the current demand and 54½ per cent. of the arrear demand as against 95 per cent. of the current demand and cent. per cent. of the arrear demand of the year 1921-22.

The demand for the year 1922-23 amounts to Rs. 30,045 and the collection amounts to Rs. 26,325 as against the demand of Rs. 32,864 and the collection of Rs. 31,450 for the year 1921-22.

The contribution which the Commissioners were called upon to pay for the maintenance of the Fire Brigade amounted to Rs. 73,047 fell far short of the collection made under the Act.

The direction contained in the first proviso to section 10 of the Act was followed.

2. During the year under report the total income from jute warehouse fees and from rate under section 25 (b) of the Fire Brigade Act as shown in statement I was Rs. 6,171-11 against Rs. 6,976 in the previous year. The amount of contribution paid to the Fire Brigade Fund was Rs. 15,653 against Rs. 12,460 in 1921-22.

No. F.B.800, dated Calcutta, the 15th November 1923.

From—C. A. Tegart, Esq., C.I.E., M.V.O., Commissioner of Police, Calcutta,

To—The Secretary to the Government of Bengal, Local Self-Government Department, Municipal Branch.

In accordance with paragraph 41, section 2 of the Licensed Warehouse and Fire Brigade Act (I of 1893), I have the honour to forward herewith the report on the working of the Fire Brigade and Ambulance Department for the year ending 31st March 1923.

Dated Calcutta, the 5th October 1923.

From—W. Jarrett, Esq., Chief Officer, Calcutta Fire Brigade (offg.).

To—The Secretary to the Government of Bengal, Local Self-Government Department, Municipal Branch.

(Through the Commissioner of Police, Calcutta.)

I have the honour to submit the following report on the working of the Calcutta Fire Brigade for the year ending the 31st March 1923.

During the year under review the Brigade was under the command of Captain B. A. Westbrook, the permanent Chief Officer, who proceeded to England, on leave, from March 1st, and I took over charge from that date.

2. **Financial Statement.**—The statement of receipts and expenditure and payments made by the municipalities within the jurisdiction of the Fire Brigade Act, I of 1893, is given in Appendix I.

3. **Fires, etc.**—The total number of calls for fires or supposed fires during the year was 566, being a decrease of 107 calls compared with the preceding year, and are classified as under (also see Appendix VII)—

Fires	... 437
False alarms, wilful	... 78
False alarms with good intent or due to electrical defects	... 43
Calls for special service, *e.g.*, buildings collapsing, etc.	... 8
Total	... 566

On twelve	"	5	ditto	ditto	...	60
On sixteen	"	4	ditto	ditto	...	64

On eighty-seven	"	2	ditto	ditto	...	174
On hundred and nine	"	1	ditto	ditto	...	109
				Total	...	566

The actual number of calls received during the year was 903, which includes instances where more than one call was received for the same fire, viz., 369 calls transmitted by street fire alarms, 410 calls from private telephone, 70 calls from Government and police lines, 22 from messengers and outsiders, 25 calls from look-out men at Fire Brigade stations, and 7 calls from theatres.

Twelve fires occurred in the premises licensed under the Licensed Warehouse Act, I of 1893.

4. **Noteworthy fires.**—On the 18th October 1922 a serious fire broke out at the Minerva Theatre, Beadon Street. Owing to the exceedingly inflammable nature of the building and contents the progress of the fire was exceptionally rapid, and the roof of the building collapsed a few minutes after the outbreak. The attention of the Fire Brigade was confined principally to preventing the fires spreading, and although this theatre is situated

in a very congested area it is satisfactory to note that the adjoining buildings were but slightly damaged, principally owing to the great heat. To augment the water-supply from the mains, which was barely sufficient, one engine obtained water from an ornamental pond in the grounds of a private residence. Fortunately this fire occurred during the day time. If it had taken place when a performance was in progress there would have undoubtedly been serious loss of life In order to avoid calamities such as this very stringent powers should be given to the authorities concerned. Under the existing, bye-laws and regulations it is practically impossible to compel the owners of theatres to afford adequate protection to the public.

On 2nd January 1923 a serious fire occurred in the "All-India Exhibition." The exhibition consisted of a very large number of temporary erections containing valuable but highly inflammable articles. The space allowed between each line of erections was totally inadequate, and no fire-stops were provided. Certain fire mains laid in the exhibition and hydrants with standpipes and hose attachment were placed at convenient points with firemen on duty, also numerous first-aid chemical machines were provided. Unfortunately at the time of the outbreak of the fire practically no water could be obtained from the fire-mains, and owing to the high wind blowing at the time and the nature of the erections and their contents, the first-aid Chemical Fire Extinguishers were powerless to prevent the spread of the fire. Several fire-engines were turned out in response to this call, the first ones naturally connecting up to the street hydrants in the vicinity of the fire. It was, however, found that the water available was totally inadequate, and other machines were sent to a large pond a considerable distance away from the fire from which source only efficient streams could be obtained throughout the duration of the fire, From enquiries made it is believed that the fire originated owing to a German high-pressure oil-lamp becoming ignited whilst being pumped up for demonstration purposes.

On 16th January 1923 a very serious fire occurred at the "Hanuman Jute Press," Salkia, Howrah. This district is notorious for the fact that practically no water is provided for fire-extinguishing, and the greatest difficulty has always been experienced by the Fire Brigade in fires in this area. Although three large erections containing jute were badly on fire, only a few inadequate streams of water could be got into operation from tanks at a distance of 500 yards or more from the seat of the fire. These ponds were soon exhausted, but it is satisfactory to note that the spread of the fire was checked until the arrival of the fire-float, when an adequate supply of water was obtained. It is noteworthy that a similar fire occurred in these identical buildings three years ago, when exactly similar conditions were experienced. During the process of dismantling the buildings a large wall collapsed killing three Indians and injuring one Indian fireman and one Indian, who were in the vicinity of the fire. To all appearances this wall was safe, and the collapse was due to the fact that the building was erected on reclaimed land which subsided. Owing to the inferior construction of the building and to confined space the firemen were throughout the fire in great danger, and it is satisfactory to note that although the roof and three walls collapsed (in one case a wall falling on the adjoining warehouse and practically demolishing it), with the exception of the above, no other accidents occurred.

5. **Fire Loss.**—The total damage caused by fire and water during the year is estimated at Rs. 15,39.161, being a decrease of Rs. 18.67,393 as compared with the figures of the last year. The damage per fire is Rs. 2,719 against Rs. 3,894 for the past twelve years.

6. The following summaries are given in the appendices shown against each :—

	Appendix.
Districts in which fires or supposed fire occurred	II
Damage caused by fire, etc., in various districts	III
Classification of fires and calls according to damage	IV
Short reports of fires of Rs. 20,000 damage and over... ...	V
Causes of fires, buildings and trades, etc., affected	XI
Comparative statement for the past thirteen years	XIII

7. **Appliances.**—Appendix VI shows the distribution of the appliances in commission by the Fire Brigade, and Appendix VII gives the number of times each appliance has been turned out.

It is estimated that motor appliances travelled 8,957 miles and horse-drawn appliances 154 miles during the year in responding to and returning from calls.

Delivery has been received of a new Dennis Lorry and a Dennis Fire Engine on the 11th July 1922 and 11th November 1922, respectively.

During the year two manual fire engines and one steam fire engine, which were very old and unserviceable for any further Fire Brigade use, have been sold. The sale proceeds amounted to Rs. 4,001-3 and were credited to the fund.

8. **Fire Stations.**—Appendix VIII gives the number of times each station has been turned out in response to fire calls, together with the monthly figures.

The Fire Brigade headquarters is still located in premises rented from the Samavaya Corporation, Limited, at a high monthly rental, and with the expansion of the Brigade the present building is not sufficient nor suitable for the purposes required, and it is now necessary to take steps for the selection of a suitable site and for erecting permanent headquarters.

The staff and appliances at the Sibpur Fire Station have been transferred to the Howrah Fire Station, and the buildings have been given over to the Bengal Police for their use free of rent, with the reservation that the station may be taken over again if required by the Fire Brigade.

9. **Staff.**—The strength of the Fire Brigade was 215. The distribution and ranks are shown in Appendix IX. The conduct and discipline have been good.

10. **Fatalities and accidents.**—During the year the total number of lives lost was 5, of which there were two cases of suicide by burning. First-aid was rendered in almost in all the cases by the Fire Brigade, and the injured persons were conveyed to hospital (Appendix X). I regret to report that Engineer Bishop of the Fire Brigade met with an accident while extinguishing a petrol fire. He was severely burnt on the face, arms, chest and back by the explosion of a drum of petrol. Two Indian firemen also sustained slight injuries from falling walls at a jute press fire.

11. **Horses.**—There are at present only 8 horses.

12. **Water-supply.**—The reports of the previous years give full details of the exact position as regards water-supply. Now that it is proposed to incorporate the Cossipore-Chitpur, Maniktala and Garden Reach Municipalities in the Calcutta Municipality it is hoped that adequate water-supplies will be provided for these areas. Regarding the existing water-supply at Howrah and Cossipore-Chitpur I again beg to invite attention of the authorities to my remarks which have been published in the Annual Reports for some years past.

13. **Fire float.**—On several occasions the new fire-float which was placed in commission in June 1922 has been of the utmost value and in at least one instance has probably been the means of saving a conflagration.

14. **Street fire-alarms, telephones and electrical communications.**—It is unsatisfactory to note that false alarms due to electrical defects have increased of late. The Bengal Telephone Corporation have been re-organising the fire-alarm system, and the process is well in hand, and undoubtedly the benefit of this will soon be apparent.

15. **Inspection department, theatres and places of public amusement, etc.**—Remarks concerning the bye-laws and regulations of theatres have been made in paragraph 4 in relation to the Minerva Theatre fire. The existing conditions in regard to enforcing the observance of the bye-laws and regulations are very ineffective, and owing to the exceedingly small fines which are imposed for non-observance and breaches of bye-laws, and the fact that theatres do not require any special license it is practically impossible adequately to safeguard the public. The question is now before

Government, and it is hoped that full powers will be given to the authorities concerned in regard to the regulation of theatres. Failing this it is possible that a very serious catastrophe may occur at any time in some of the highly inflammable Indian theatres which are so often overcrowded by the public.

The fines imposed by the Municipal Court during the year for breach of bye-laws of theatres amounted to Rs. 1,237 against Rs. 2,290 for the previous year.

In connection with the Licensed Warehouse and Fire Brigade Act, I of 1893, 6,451 inspections of warehouses have been made during the year, 364 applications for licenses and complaints have been attended to and disposed of; 224 prosecutions were made under section 14 of Act I of 1893 which resulted in 153 persons being fined, aggregating in all Rs. 2,676-8, 17 persons being warned, 12 persons acquitted and 42 cases withdrawn and filed.

16. **Fire Brigade Workshops.**—During the year the workshops were in charge of S. O. Collins, and all repairs to fire appliances were done in an able manner enabling machines to be kept in good working order.

17. **General.**—The Calcutta Fire Brigade protects the municipalities of Calcutta, Cossipur-Chitpur, Howrah, Maniktala and Garden Reach and may attend fires outside the boundaries of these municipalities but not exceeding a radius of 6 miles from the Central Fire Station, provided that appliances can be spared and on payment of a prescribed fee. Appendix XIV gives the Government order relating to this and the form which should be signed prior to the Fire Brigade leaving the jurisdiction of the above municipalities.

I am pleased to record that the members of the Fire Brigade rendered excellent and strenuous services throughout the year.

Ambulance Department.—The Motor Ambulance Service has been of much value to the public responding to 8,081 calls during the year.

The staff of the Motor Ambulance Service consists of 10 drivers and 20 attendants.

Appendix XVI gives the number of calls received every day and month throughout the year. The Ambulance Department is financially maintained by Government and the Corporation of Calcutta at the proportion of one-third and two-thirds, respectively. Appendix XV gives a statement of receipts and expenditure incurred by the Motor Ambulance Service during the year.

The year opened with a balance of Rs. 11,351-4-7 and the receipts amounted to Rs. 5,22,508-11-3. The total expenditure was Rs. 4,84,366-0-3 leaving a balance of Rs. 49,493-15-7 at the close of the year.

Owing to bad pressure several lengths of hose were burnt. The engine had to be placed at a tank about 500 yards away from the fire which caused a great deal of extra work and delay.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Winter Rice Crop of Bengal, 1923-24.

(NOTE.—On an average of the five years ending 1921-22, the area under winter rice in Bengal has represented some 19·7 per cent. of the total area under rice in British India.)

Character of the season.—The comparatively unfavourable weather conditions this year contrast with those of the two preceding seasons. As reported in the preliminary forecast, sowing of the broadcast variety of rice was carried out under good conditions, especially in the low land tracts of East and North Bengal. Transplanted paddy, on the other hand, has fared less favourably throughout, owing to insufficient rainfall. On this account transplanting was, in parts of North and West Bengal, prolonged into late September. Good rainfall in August helped the crop in some West Bengal districts, but was not so well distributed in Mymensingh and in parts of North and West Bengal. On the whole, a satisfactory crop is anticipated for the broadcast variety and a fair one for the transplanted variety.

Acreage.—According to the District Officers' estimates, the total area under winter rice amounts to 14,951,900 acres as against 16,171,600 and 16,209,900 acres, respectively, in the corresponding and final forecasts of last year. The decrease is attributed to unsuitable weather. A noticeable area of land which normally bears transplanted paddy is fallow in the present season.

Outturn.—From the district returns appended it will be seen that Dacca, Bakarganj and Noakhali report a normal crop. Ten districts report crop between 92 and 83 per cent. and the rest between 75 to 49 per cent.

The outturn for the province (worked out on the District Officers' estimates) is 80 per cent. of a normal crop; but I raise this figure to 85 per cent. On the latter basis, the gross yield of cleaned grain from the winter rice crop, assuming a normal yield of 12½ maunds per acre, amounts to 5,835,800 tons this year as against 6,831,700 and 7,294,500 tons, respectively, in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the *Bhadoi* crops of Bengal, 1923-24.

(NOTE.—On an average of the five years ending 1921-22, the area under autumn rice in Bengal has represented some 6·6 per cent. of the total area under rice in British India.)

Character of the season.—As indicated in the preliminary forecast there was an unequal distribution of rainfall throughout the Province. In East Bengal the weather was generally favourable throughout, but the lowness of river levels during the monsoon period affected the outturn. Elsewhere the crops, especially on high lands, suffered much through want of sufficient rain at the time of their maturity, causing a considerable damage. On the whole a fairly satisfactory crop was reaped in East Bengal and a fair one for the rest of the Province.

Acreage.—The total area sown with the different *bhadoi* crops this year is reported to be 5,767,500 acres as against 5,938,100 acres last year. Of this the area under autumn rice is estimated at 4,984,000 acres as against 5,160,200 acres last year.

Outturn.—According to the District Officers' estimates, the outturn of autumn rice as as well as of all the *bhadoi* crops together work out at 79 per cent. of the normal for the Presidency as against 78 per cent. last year.

Accepting 77 per cent. as the outturn of autumn rice this year, the gross outturn of the crop for the Presidency on the basis of a normal yield of 10¾ maunds of clean grain per acre is estimated at 1,515,500 tons this year as against 1,589,400 tons reported in the corresponding forecast of last year.

Director of Agriculture, Bengal (*offg.*).

24-PARGANAS.	*Bhadoi* paddy (autumn rice).	65,300	47,400	42,600	67	67	September. Normal.	The decrease in area is due to unfavourable weather at sowing time for insufficient rain. The weather became favourable after the rain in June. The outturn is expected to fall below the normal owing to damage to the extent of 4 annas crops done by insects and insufficient rain in the Basirhat subdivision.

J. C. ROY, for *Director of Agriculture, Bengal.*

DACCA, *the 15th December 1923.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for November 1923.

I. **Character of the season.**—During the month light rain fell almost all over the Province ; but precipitation was in defect of the normal except in Khulna, Chittagong, the Chittagong Hill Tracts. Midnapore, Howrah and Bakarganj, where it was in excess. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Reaping of early winter paddy and ploughing for and sowing of spring crops continued briskly.

III. **State of standing crops.**—Owing to scarcity of rain the outturn of winter rice, especially the late transplanted, variety was adversely affected in Mymensingh and in parts of North and West Bengal ; elsewhere conditions were generally fairly satisfactory. The condition of sugarcane and vegetables was favourable.

IV. **Prospects and probable outturn.**—The prospects for transplanted winter paddy were fair and favourable for broadcast *aman* paddy. The outturn of winter rice may be estimated at 85 per cent. of the normal and that of *bhadoi* paddy at 77 per cent. of the normal.

V. **Damage to standing crops.**—Slight damage to winter paddy and spring crops by insect-pests was reported from Nadia and Tippera districts.

VI. **Condition of agricultural stock.**—The condition of cattle was generally good. Sporadic cases of cattle disease were, however, reported from Nadia, Burdwan, Bankura, Darjeeling, Rangpur and Cooch-Behar.

VII. **Failure of pasturage and fodder.**—No scarcity of fodder was reported from any part of the province.

VIII. **Prices of food-grains.**—During the second fortnight of the month the prices of the cheapest quality of rice rose in four districts, fell in thirteen and remained stationary in the rest of the Province. The prices in different districts varied from 6¼ seers per rupee in Rangpur to 9½ seers per rupee in Burdwan.

IX. **Condition of agricultural people.**—The condition of agricultural population continued to be fair.

AMENDMENT OF THE TRAVELLING ALLOWANCE RULES.

GOVERNMENT OF BENGAL.

FINANCE DEPARTMENT.

Audit

CALCUTTA, THE 13TH DECEMBER 1923.

RESOLUTION—No. 11733F.

Amendment of the Travelling Allowance Rules.

THE Government of Bengal have had under consideration the recommendations of the Retrenchment Committee on the subject of travelling allowance. The Committee drew attention to certain defects in the present rules and, while indicating where these operated unfairly in certain directions, made certain suggestions whereby economy could be effected and

abuses removed. The Governor in Council has, after careful consideration of the various recommendations, decided to amend, in the following manner, the subsidiary travelling allowance rules framed by the Government of Bengal under rule 44 of the Fundamental Rules and published with notifications Nos. 19427F. and 19451F. in the *Calcutta Gazette Extraordinary* of 23rd December 1922. These rules as now amended will come into force on the 1st January 1924.

2. In doing so, Government have revised the classification of officers for the purposes of travelling allowance on the principle that the status of the service to which an officer belongs should be the main criterion according to which he should be classified. The special classification under Appendix 18, Civil Service Regulations, will no longer be in force, but the special higher rates of daily allowance to officers included in Appendix 25, Civil Service Regulations, will continue pending further examination, so far as those officers are concerned whose pay is debitable to provincial revenues and who are under the administrative control of the Governor in Council acting as the Agent of the Governor-General in Council.

3. *For* rule 1 (Reserved and Transferred) *substitute*—

"For the purpose of calculating travelling allowance, Government servants are divided into four grades as follows :—

(*a*) The first grade includes all officers of Government in receipt of actual pay exceeding Rs. 750 per mensem as well as other officers of the services included in the following schedule :—

Schedule.

(1) Indian Civil Service.
(2) Indian Police Service.
(3) Indian Forest Service.
(4) Indian Educational Service.
(5) Indian Service of Engineers.
(6) Indian Agricultural Service.
(7) Indian Veterinary Service.
(8) Indian Medical Service.
(9) Non-Indian Medical Service officers holding Civil Surgeoncies.
(10) Officers holding appointments reserved for or included in the cadre of the all-India Services.
(11) Subdivisional Officers and Additional Subdivisional Officers when touring within their subdivisions or travelling to or from the headquarters of their districts except on transfer.

(*b*) The second grade includes all Government servants in receipt of actual pay of not less than Rs. 150, but not exceeding Rs. 750 and not included in the first grade.

(*c*) The third grade includes all other Government servants in superior service, except forest guards.

(*d*) The fourth grade includes forest guards and all Government servants in inferior service."

For rule 19 (Reserved and Transferred) *substitute*—

"The mileage allowance admissible to a Government servant of the 1st, 2nd or 3rd grade is one and three-quarter fares of the class in which he is entitled to accommodation, except in the case of—

(1) journeys on transfer.

(2) journeys under 75 miles and an absence from headquarters of more than 24 hours, both conditions to be fulfilled, and

(3) journeys of Government servants required to accompany the Government of Bengal to Darjeeling, which are governed by the Darjeeling Allowance Code,

in which case double fare will be allowed. The mileage allowance admissible to a Government servant of the 4th grade is the fare of the lowest class."

For rule 33 (*a*) (Reserved and Transferred) *substitute*—

"Daily allowances are drawn on the following scale:—

(*i*) A Government servant of the first grade Rs. 6.

(*ii*) A Government servant of the second grade As 5 for every Rs. 25 or fraction of Rs. 25 of his pay, subject to a maximum of Rs. 4.

(*iii*) A Government servant of the third grade annas 2½ for every Rs. 12½ or fraction of Rs. 12½ of his pay, subject to a minimum of As. 5.

(*iv*) A Government servant of the fourth grade As. 4 if he travels outside the province, and As. 3 if he travels within the province."

In rule 50 (Reserved and Transferred) after the words "mileage allowance" in line 4 *insert* "as provided in rule 58" and *omit* the word "entire" in line 4 and the words "or to a Government servant................. journey not exceeding 20 miles" at the end of the rule.

For rule 58 (Reserved and Transferred) *substitute*—

"(*a*) Subject to any conditions which a competent authority may, by general or special order, impose, a Government servant in superior service may exchange his daily allowance for mileage allowance on any day on which—

i) he travels by railway or steamer or both, or

ii) he travels more than 20 miles by road:

Provided that, if a continuous journey extend over more than one day, the exchange must be made for all such days and not for a part only of them.

NOTE.—Short journeys within a radius of five miles from headquarters may not be added to other journeys, when calculating the distance travelled by road or the amount of mileage allowance admissible for road journeys.

(*b*) When a journey by road is combined with a journey by railway or steamer, mileage allowance may be drawn on account of such combined journey, but mileage in respect of the road journey will be limited to the amount of daily allowance unless the journey by road exceeds 20 miles, in which case an amount equivalent to daily allowance and mileage allowance for the excess over 20 miles may be drawn in accordance with (*c*) of this rule. The mileage allowance for the first 20 miles or part thereof may be increased by 50 per cent. on a certificate by the controlling officer that sufficient camp equipment was taken to justify the increased rate, but the mileage in respect of this part of the road journey is in this case also limited to the amount of daily allowance.

(*c*) When a journey is by road, an amount equivalent to the daily allowance may be drawn for the first 20 miles and mileage allowance for the excess over 20 miles of any journey, provided that only half mileage may be drawn for any excess over 30 miles.

(*ii*) Unless such journey by road be a journey to or from the Government servants' headquarters, mileage allowance shall be calculated on the distance actually travelled, without regard to the points fixed by or under rule 15."

After the words "in inferior service" in line 2 of rule 60 (Reserved and Transferred) *add* the words "except as provided in the Darjeeling Allowance Code", and *for* clause (*d*) of the same rule *substitute*—

"For a journey by road combined with a journey by railway or by steamer, he may, except as provided in rule 59, draw mileage allowance for the road journey in addition to the allowances admissible under clause (*a*) or (*b*) of this rule, but such mileage allowance is limited to the amount of daily allowance unless the journey by road exceeds 20 miles."

In rules 146 (*a*) (Reserved) and 137 (*a*) (Transferred) *insert* after the words "mileage allowance of his grade" the words "as laid down in rule 58."

Ordered that the Resolution be published in the *Calcutta Gazette.*

Ordered also that the Resolution be forwarded to the Secretary to the Board of Revenue, Bengal; Director of Public Instruction, Bengal; Surgeon-General with the Government of Bengal; Inspector-General of Police, Bengal; Inspector-General of Prisons, Bengal; Superintending Engineers; Commissioners of Divisions; District and Sessions Judges; Conservator of Forests, Bengal; Commissioner of Excise and Salt, Bengal; Director of Agriculture, Bengal; Director of Land Records and Surveys, Bengal; Advocate-General, Bengal; Director of Public Health, Bengal; Inspector-General of Registration, Bengal; Commissioner of Police, Calcutta; District Officers; Superintendent and Remembrancer of Legal Affairs, Bengal; Chief Judge, Small Cause Court, Calcutta; Private Secretary to the Governor of Bengal; Military Secretary to the Governor of Bengal; Administrator General and Official Trustee, Bengal; Registrar of Co-operative Societies, Bengal; Chief Presidency Magistrate, Calcutta; Chief Engineer, Public Health Department, Bengal; Port Officer, Chittagong; Superintendent, Royal Botanic Garden, Calcutta; Agent for Government Consignments, Bengal; Deputy Commissioner Chittagong Hill Tracts; Veterinary; Adviser to the Government of Bengal; Municipal Magistrate, Calcutta, Superintendent, Government Printing, Bengal; Director of Industries, Bengal; Accountant-General, Bengal, and to all departments of this Government, including the Accounts Department, for information.

By order of the Governor in Council,

A. MARR,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Spring Oilseed Crops of Bengal, 1923-24.

(NOTE—On an average of the five years ending 1921-22, the area under linseed in Bengal has represented some 5·1 per cent and that under rape and mustard 17·5 per cent. of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals only with the area sown and the general condition of the crops.

Area sown.—Oilseeds are grown chiefly in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum, for which separate forecasts are issued), is returned at 877,600 acres this year, as against 925,400 acres and 905,400 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September and October, though defective, enabled moisture to be retained in the soil for preparatory tillage. The sowings, therefore, commenced at the usual time and continued in November under favourable conditions except in Mymensingh and in parts of West Bengal, where progress is slow owing to absence of rain. The present outlook is generally reported to be fair on the whole.

Director of Agriculture, Bengal (offg.).

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) Every application for the export of opium from India should be accompanied by an "Import certificate" in the form prescribed by the League of Nations and published in the *Calcutta Gazette* of the 20th September 1922, with the Bengal Government notification No. 2449S.R., dated the 16th September 1922.

(vii) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(viii) The promissory notes taken on the day of sale under the sixth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(x) The opium advertised for sale shall be paid for not later than 3-30 P.M. of the fifteenth day after the day of sale, provided it does not fall on a Saturday ; if it falls on a Saturday the opium must be paid for by 1-30 P.M. ; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the sixth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit ; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that

obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(xi) Purchasers taking out certificates or orders for the delivery of opium, after making full payments as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorising the delivery of single lot or of a different number of lots or chests whether more or less than the number of lots or chests ordinarily required to be included in each certificate or order.

(xii) No deposit of public securities under the sixth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xiii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, receipts of the Imperial Bank of India, or Government securities a sum equal to the amount for which a promissory note would otherwise be taken under the sixth of these conditions.

(xiv) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bona fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 4,500 specified in the third of these conditions.

(xv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether ten lots, provided always that there remain a sufficient number of lots of the opium to complete the said ten.

(xvi) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal :—

No. 1.—Certificate of the opium advertised for sale.

No. 2.—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured in the Gazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Gazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred, on reference to chests, after the sale and delivery of the opium for shipment.
